Dinosaur
Subtraction Game

a game for 2 – 4 players
Need: dice, markers

Each player puts a marker on Start. Players take turns to: roll the dice, move forward that many spaces, solve the subtraction, and cover that number on the volcano with a marker. If the number is covered the player doesn't cover any number on this turn. If a player lands on a dinosaur, they can cover a number of their choice after naming a subtraction problem with that difference. The game ends when the volcano is covered!
