

Strand Numeration

Skill Practice comparing and ordering fractions

Games Kit Materials (per group)

- Game Master 33 (16 *Build-It* cards)
- Game Master 34 (gameboard), 2 copies

Players 2

Grade 5

Object of the game To be the first player to arrange 5 fraction cards from smallest to largest.

Directions

1. Each player displays the gameboard shown on Game Master 34 on the playing surface in front of himself or herself.
2. One player shuffles the cards and deals one card facedown on each of the 5 spaces on both gameboards.
3. The dealer puts the remaining cards facedown in a draw pile. He or she turns the top card over and places it faceup in a discard pile.
4. Players turn over all 5 cards on each of their gameboards. The order of the cards may not be changed at any time during the game.
5. Players take turns. For each turn, a player takes either the top card from the facedown pile or the top card from the discard pile. The player decides whether to keep the card or put it faceup on top of the discard pile.
6. If the player keeps the card, he or she must use it to replace one of the 5 cards on his or her gameboard. The player puts the replaced card faceup on the discard pile.
7. If all the facedown cards are used, the dealer shuffles the discard pile and places those cards facedown in a new draw pile. The top card is turned over to start a discard pile.
8. The winner is the first player to have all 5 cards on his or her gameboard in order from the smallest fraction to the largest.
