

Five-in-a-Row with Three Cards

You need

- deck of Primary Number Cards (without Wild Cards)
- 20 counters
- gameboard

Play with a partner. Work together.

- 1 Turn over the top 3 cards.
- 2 Player 1 chooses a sum to cover on the gameboard. Choose any sum you can make with 2 of the numbers.
 $3 + 7 = 10$ $7 + 1 = 8$ $3 + 1 = 4$
- 3 Turn over three more cards.
- 4 Player 2 chooses a sum to cover on the gameboard.
- 5 Keep playing. If all of the sums are covered, pick 3 new cards.
- 6 The game is over when all of the numbers in one row are covered. The numbers can go across , down , or corner to corner.

More Ways to Play

- Play with different gameboards.
- Play with the Wild Cards. A Wild Card can be any number.
- Turn over 5 cards on each turn. Choose any sum you can make with 2 of the numbers.
