

Game of Pig

The object of the game is to be the first player to reach 100 points. This is a mental math game so most of the addition work is done in your head.

You need 2 dice, piece of paper and a pencil. (The pencil and paper are used to keep score on.)

- First player rolls the dice and adds the amount shown on the dice.
- The player can decide to stop and keep this score or roll the dice again and add this total and the last total together.

The first player can keep rolling the dice as long as he/she wants. They only catch is if you roll a one or if you roll 2 ones.

- If you roll 1 one, you lose the points for this entire turn.
- If you roll 2 ones, you lose all your points, even the points from previous rounds.
